Confine small workplace emergencies**

This unit covers the competency required to confine small workplace emergencies.

Small workplace emergencies may include such incidents as:

- ✓ a small fire that can be controlled using a nearby fire extinguisher, fire blanket or firehose
- ✓ a chemical spill that can be controlled using workplace personal protective clothing and equipment, and a small spill kit; or
- ✓ a workplace vehicle accident where there is no significant injury or damage.

Application:

- ✓ This unit applies to employees in the workplace within all industries and in all contexts.
- ✓ This unit places responsibility on individual employees in the workplace to identify, assess and safely confine workplace emergency situations.
- ✓ This requirement is consistent with the legislative obligations of employees as prescribed in WHS legislation.
- ✓ The unit may also be used for planning for future operations in the workplace.
- ✓ The knowledge and skills gained through the completion of this unit may be applied by all employees across all industries.

Course Duration: 2.5 hours

Assessment Requirements:

- ✓ Theory: true/false and multiple choice questions.
- ✓ Practical:
 1. Demonstrate the safe and effective use of a water fire extinguisher on a simulated fire.
 2. Demonstrate the safe and effective use of a fire blanket on a simulated fire.

Recommended Re-Assessment Date: every 12 months from date of training
